## PROFESSIONAL EXPERIENCE

### Application Developer

AUGUST 2020 – CURRENT | ZAYO GROUP, BOULDER, CO

- Supported, maintained and developed features for various products including web, mobile, microapp and Salesforce
- Collaborated with internal and external teams such as stakeholders, PMs, and QA through Agile product development
- Maintained and contributed React components to a component library for consistency across multiple company products
- Developed, debugged and enhanced an IOS mobile app to deployment including adding new features (ex. Live chat)

### Application Developer

MARCH 2021 – CURRENT | ONWATER LLC, BOULDER, CO

- Supported the IOS and Android mobile development and re-architecture process of a startup app to product release through development, debugging, and feature addition initiatives
- Improved the design, responsiveness and functionality of the website

### Full Stack Web Developer

JUNE 2018 – CURRENT | SELF-EMPLOYED

- Coordinated the designing and building of web applications based on HTML5, CSS3, and JavaScript ES6
- Capitalized on the benefit of reusable, efficient components through integration of front-end JavaScript libraries (React)
- Implemented best UI/UX design practices for cross-platform and cross-browser support through responsive techniques
- Integrated REST API which consumed JSON data through AJAX libraries for asynchronous request handling

## PERSONAL PROJECTS

### CHATSY - Social Media Web Application

[Live Demo](#) | [Source Code](#)

A social media website where users can connect with other users around the world, design their own profiles, create posts and interact with other users' posts.

Uses React/Redux libraries, NodeJS, Material-UI framework, Javascript and GCP Firebase Web SDK.

### NIFFTY - WordPress E-commerce Theme

[Live Demo](#) | [Source Code](#)

Niffy is a full customized, minimalistic, multipurpose WordPress theme with WooCommerce support. It features e-commerce support, page animations, blog and search functionality, SEO compatibility, responsive design and more.

Uses WordPress, WooCommerce, SASS, PHP, and jQuery.
